

CDM Smith provides lasting and integrated solutions in water, environment, transportation, energy and facilities to public and private clients worldwide. As a full-service consulting, engineering, construction, and operations firm, we deliver exceptional client service, quality results and enduring value across the entire project life cycle.

Job Responsibilities –

CDM Smith's Federal Services Unit is seeking a Full Time Risk Analysis professional with the ability to manage a variety of projects, large tasks, and technical activities under FEMA's Risk MAP Program. This candidate will work directly with our JV partners, state and local stakeholders, and our client to achieve the mission critical requirements of the Program.

Job Responsibilities:

- Planning, developing, coordinating, and directing multiple projects and tasks.
- Coordinating and reviewing the work of multiple staff from a variety of disciplines, including riverine and coastal H&H engineers, GIS specialists, planners, outreach specialists, project coordinators, and administrative support positions.
- Estimating resource needs and scheduling and assigning work to meet milestone completion dates.
- Understanding agency requirements and aligning CDM Smith capabilities to support FEMA's objectives.
- Initiating and maintaining relationships with FEMA at HQ and regions
- Supporting the direct marketing and proposal development for FEMA activities
- Working effectively with client sales leaders, technical strategy leaders, and project managers to position, secure, and deliver quality projects
- Supporting project execution of the Risk MAP contract nationwide
- Mentoring and staff development including thorough high-quality performance appraisals
- Active participation in relevant industry organizations such as ASFPM and local/state chapters.
- Potential to deploy nationally and internationally in support of post disaster response and recovery activities

Job Requirements –

- Bachelors degree in a business or technical discipline
- 10+ years of related work experience in water resources, floodplain management, risk analysis, hazard mitigation, or disaster response related project activities;
- Specialized knowledge of management consulting practices; supervisory capability and excellent interpersonal and communication skills;
- Motivated self-starter willing to lead activities related to FEMA programs

Preferred Qualifications :

- Experience and established relationships within the NFIP
 - Demonstrated experience managing and executing project work under FEMA's Risk MAP or similar program.
 - CFM plus relevant credential or certification in technical discipline
- MBA/MA strongly preferred

We attract the best people in the industry, supporting their efforts to learn and grow. We strive to create a challenging and progressive work environment. We provide career opportunities that span a variety of disciplines and geographic locations, with projects that our employees plan, design, build and operate—as diverse as the needs of our clients. CDM Smith is an Equal Opportunity/Affirmative Action employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability, or protected veteran status.
